SCIENCE AND TECHNOLOGY

React Navigation

- Extensible and easy-to-use navigation solution
 - Built-in navigators: Stack, Drawer, Tab
- Installing
 - yarn add react-navigation
 - Or
 - npm install --save react-navigation

Typical Mobile Navigation

Stack Navigation

- Provides support for transition between screens
- Manages navigation history
 - Similar to web browser
- Provides the gestures and animations when navigating between routes in the stack
 - Enables you to go back, tied to Android back button

Other Navigators

- Drawer Navigation
 - Provides automatic construction of side drawer with navigation options
 - Can customize the drawer
- Tab Navigation
 - Typical bottom tab navigation support
- A lot of additional features to support custom navigators, custom routers and navigation views
